

FREE-FLOATING LIFTS

(4,000LBS TO 25,000LBS)

THIS BOAT LIFT IS DESIGNED FOR SALT, BRACKISH OR FRESHWATER AND IS FREE-FLOATING, ALLOWING IT TO BE VERSATILE AND MOVABLE.

The Guardian Boat Lift is a "level lifting" structure using advanced accelerometers. This Free-Floating lift can be tied to a boat dock or a standard mooring structure. The design is a marine grade, aluminum frame with stainless steel hardware, and polyethylene tanks.

These lifts can be adapted at any time to fit a larger and/or smaller boat if desired. The Free-Floating lift is well-suited and can be placed on a stationary or floating dock system. This lift will effortlessly fit into a double slip, L or U-shaped slip and, most any square dock configuration. The lift will come pre-assembled and once it arrives to the site, final completion is approximately one hour with a two person set up.

6,000-8,000 LBS.

9,000-12,000 LBS.

12,000-16,000 LBS.

UP TO 21,000 LBS.
Single Aux

UP TO 25,000 LBS.
Double Aux

THE FREE-FLOATING LIFT COMES WITH:

- 4 valve automatic controller that raises and lowers the boat
- Rated for Fresh and Salt water applications
- Fits any hydro pneumatic Free-Floating lift system from 4,000 to 25,000 lb. boats
- Pedestal mounted controller attached to lift (not on the dock)

CONFIGURED FOR NEARLY ALL BOAT DESIGNS

Including:

- Inboard Boats
- Outboard Boats
- I/O Boats
- Pontoon Boats
